Forecast for Wednesday 22 Sep 2021

Weather: Clear skies through the early hours apart from some patchy cloud across western hills. From dawn, thicker cloud sinks southwards across the Peaks, shrouding the highest hills for an hour or two and bringing some patchy drizzle. Bright or sunny spells will follow through afternoon. Remaining dry through evening.

Chance of cloud free mountain/hill tops above 600m: 40% improving 90% by late morning.

Visibility: Cloud will be become rather extensive above around 400m through early morning, but will lift and break by afternoon to leave very good visibility across the area.

Forecast for Thursday 23 Sep 2021

Weather: A cloudy but bright and largely dry day with fresh to strong westerly winds. Cloud may break at times to leave some sunny spells, particularly across southern and eastern areas. Little change through evening

Maximum wind: Westerly 30mph gusting 40mph initially, gradually easing through the day.

Chance of cloud free mountain/hill tops above 600m: 60% improving 90% through morning.

Visibility: Early hill fog above 400m is probable but this will clear from dawn. Away from this, no issues expected although a few patches of cloud may cling to the highest summits through evening.

Temperature: **Valleys:** Plus 14 Celsius rising to 18 Celsius.
At 600m: Around plus 12 Celsius.
Freezing level: Well above summits.
